MEMORANDUM FOR: Members of COMPUSEC Technology Working Group

FROM: [REDACTED], Management Liaison

SUBJECT: COMPUSEC Technology Working Group Meeting -  
26 July 1984

1. At the conclusion of the first meeting of the Technology Working Group on 26 June 1984, the participants agreed to reconvene in July to explore R&D technologies that relate to three key areas of the computer security (COMPUSEC) project: (1) access and authentication, (2) labelling, and (3) accountability/auditing. The next meeting of the working group is planned for 26 July 1984 between 0900-1700 [REDACTED]

[REDACTED] A preliminary agenda for the meeting and relevant information drafted by [REDACTED] are attached.

2. It is expected that the second meeting of the Technology Working Group will build on information presented at the June meeting. At the first meeting, [REDACTED] IC Staff COMPUSEC principal, briefed the members on the COMPUSEC project's critical system and safeguards efforts. Later Mr. [REDACTED] explained the Community's need for identifying technologies that could be applied, in the near term, to satisfy requirements for access and authentication, labelling and accountability. The working group was asked to concentrate their efforts on these three areas.
